

The Consulate General of Hungary in New York is organizing extramural consular days in Boston on the 14th and 15th of February 2014.

The primary task of the consular days is to bring the simplified naturalization process and the possibilities provided by the “Magyary Simplification Program”, by overcoming distances closer to those US citizens of Hungarian origin whose interests have been raised.

The simplified naturalization process means a solution first of all to those citizens of Hungarian origin who or whose ascendants lost Hungarian citizenship for any reason (territories detached from Hungary, deprivation of citizenship etc.).

You will also have the opportunity to lodge applications for Hungarian passport since we will be provided with mobil devices enabling us to take biometric identifiers, such as facial image, and fingerprints, necessary for the passport procedure.

Visitors can ask for information about other issues beyond simplified naturalization process.
